

# **ROUGHNECK'S DEREK EDITION**

## **2018 ENHANCEMENTS**

### **DESCRIPTION**

Transactions - Add GL Transaction

We have removed unnecessary spaces and shortened the description when adding Oil and Gas sales. This makes more room for larger volumes and allows for better utilized spacing so that prices and volumes will appear on reports.

### **DIVISION OF INTEREST**

File Maintenance - Division of Interest

You now have the option to remove the "Released YTD Total" from the DOI reports. This option is located under the "View" or the "Print" screens.

### **PAYROLL**

File Maintenance - Employee

We have added a new Pre Tax feature that if used, the Federal Unemployment and State Unemployment will first deduct that amount before computing the amount. This can be used for CAF plans, or for anything you want deducted before FUTA and SUTA are calculated.

### **ACCOUNTS PAYABLE**

Accounts Payable - Add Invoice

There is now more space for Descriptions.

### **1099 REPORT**

EOY - 1099 Report

New option that allows you to print your company address on the upper left corner of report. With this feature, the report will now fit nicely in window envelopes and eliminates the need for return address labels.

### **BANK**

Bank - Edit

You can now sort the list by "Source" number. Simply click on the header "Source" and your records will be sorted by Source number (Owner, Customer, Vendor, and Employee).

### **OKLAHOMA TAX REPORT**

The Oklahoma Non Resident State Tax report will now count up the number of owners to be reported, Revenue total and Tax amount.

**THANK YOU FOR YOUR ONGOING SUGGESTIONS!**  
**WE HOPE YOU KEEP SUBMITTING YOUR GOOD IDEAS!**

You are welcome to submit your "Wishes" from our website at [www.ruff.com](http://www.ruff.com) under "Wish List" or send us a quick email to [support@ruff.com](mailto:support@ruff.com). We look forward to all your suggestions!
